PROJECT

- **Project Name**: **Disneyplues**   May 2023 -**Present** | **Live Link** |
- **Disneyplues is an immersive movie streaming website inspired by DisneyPlus. Users can create accounts and access personalized profiles, while administrators can manage movie content through an intuitive admin panel. The homepage showcases a comprehensive list of movies, with detailed views providing essential information and high-quality trailers for preview. Seamless movie playback is available directly on the site, and users can customize their profiles. Disneyplues combines user authentication, admin functionality, movie listings, detailed views, playback, trailer viewing, and profile management for an engaging streaming experience.**
- **Technologies** : The Website Build Using : **ReactJS , Firebase, Tailwind CSS Client Side, For The Backend Node.Js MongoDB Express JWT**
